

## SUMMARY OF ST. LOUIS MARKETS.

Local grain markets reacted sharply yesterday. Many traders who sold short Monday recovered their losses. In this they were encouraged by the news which, like that received late in the previous session, was distinctly bullish. Weather predictions were for rain through the South and Southwest, and crop reports were less encouraging than while have been recently. Receipts were not up to the average of the last few days, and while the quality of much of the wheat received was such as to cause an easing off in the cash demand, the bullish character of the speculative inquiry was never in doubt. While trading was at no time heavy, buyers had the call.

Corn was all but neglected, though the few sales made were on a higher basis. Receipts were light and selling orders were scarce. There was a better outside cash and export demand.

Sept. wheat opened unchanged and closed 1¢ up.

Sept. corn opened unchanged and closed 1¢ up.

Sept. oats closed 1¢ up.

Receipts of produce were moderate and prices for fruits and vegetables were generally strong.

There was a sharp bull movement in local securities, with Transit in the lead on the upturn.

Yesterday's bank clearings were \$3,883,691; balance, \$1,618,51. Discount rates were steady, between 5 and 6 per cent.

Spot cotton was 13¢ lower in the local market.
